**RE: 2017 Annual Monitoring Report / Performance Review, In Accordance with Nuclear  
Regulatory Commission Docket No. 40-8903, License No. SUA 1471, and New Mexico  
Environment Department DP-200 Ground Water Discharge Plan**

Mr. Whited and Mr. Pearson

Pursuant to US Nuclear Regulatory Commission License SUA-1471, Docket 40-8903, License Condition 35(E) and in accordance with the ground water discharge permit DP-200 issued by the New Mexico Environment Department, please find enclosed copies of the subject Annual Performance Report for 2017 for Homestake's Grants Reclamation Project. Included in each report copy is a CD containing an electronic PDF file version of the report.

HMC noted in the past that monitoring conditions on the site are subject to change and may require periodic judgment decisions relative to the ability to supply certain data to meet the Table 2 - Groundwater Monitoring Program (8-99) requirements, as modified by NRC License provisions.

With respect to the well monitoring requirements outlined in Table 2, monitoring wells 446, 491, 492, 942 and SUB1 were not sampled in 2017; the wells are either obstructed, not accessible, or supply inadequate water for sampling. We have recommended, as part of the proposed Groundwater Compliance Monitoring Plan, that these wells be replaced by alternate wells for monitoring in this area.

9826258

Thank you for your time and attention on this matter. If you or anyone on your staff has any questions, please contact me at the Grants office at 505 287.4456, extension 34, or call me directly on my cell phone at 505 290.2187.

Respectfully,

**Thomas Wohlford**

Closure Manager  
Homestake Mining Company of California  
Office 505 287 4456 x34 | Cell 505 290 2187
